CONSTRUCTION WORKS

Recycled Content Building Materials Product List

October 1998

To facilitate the use of recycled-content products on your construction projects, here is a list of some commonly used and readily available products. This list, organized by division, is designed to provide options for the types of recycled building products to look for as part of your own "buy recycled" program.

This list is a small representation of what is available in recycled-content building materials. It is not comprehensive and it does not constitute a recommendation by the King County Solid Waste Division. Additional information on recycled-content materials is available through the resources listed below under Additional Resources and The World Wide Web. **If you are a vendor of recycled-content building materials for the construction industry and would like to list your products in this guide, please see the last page of this document for a listing form.**

Additional Resources

Certified Forest Products Council – 503-590-6600, 888-737-3877, located in Beaverton, Oregon: 14780 SW Osprey Dr., Suite 285, Beaverton, OR 97007-8424. This organization provides information on sustainable harvested forest products.

Harris Directory—888-844-0337

Now in its 9th edition, the Harris Directory is a comprehensive database of sustainable building products and practices. Divided for convenience into three categories: recycled-content, reuse, and low-toxicity. Created with FileMaker Pro, the directory comes on a reused disk with data and self-running software.

The Sourcebook for Sustainable Design, Boston Society of Architects—617-951-1433

A terrific free guide to resource-efficient building materials and processes. Includes discussions of material selection criteria and supplier information.

Guide to Resource Efficient Building Elements (GREBE), Center for Resourceful Building Technology—406-549-7678. Contains detailed descriptions and builder experiences using resource-efficient products.

DIVISION 2: SITEWORK

Div. 2: Sitework Compost

Compost is an excellent soil base and amendment, providing superior moisture and nutrient retention. Various types and mixes are available. For example: compost screened to 7/16" size is used with ornamentals or as mulch, while compost screened to 5/16" size is used for fine seed or grass. Available direct from local compost producers or numerous local topsoil suppliers.

Vendor	Product description	Contact information
Cedar Grove Compost	This company has pure compost made from 100% recycled yard debris. In addition, they make two different topsoil mixes, a plant soil mix, peat and bark mixes, and a compost mix for hydroseeding sites.	For information on ordering or delivery contact Cedar Grove Compost in Maple Valley at 425-432-2393.
Groco, Inc.	They have two products: Groco is a composted mix of Metro biosolids and sawdust from local lumberyards. Steerco is composted manure from local dairies and sawdust. Each is also offered in a mix with Cedar Grove Compost.	For information contact Groco in Seattle at 206-622-5141
Land Recovery, Inc. (LRI)	LRI operates the Pierce County Compost Facility in Purdy. They recycle yard and garden debris into compost called Pierce County Recycled Earth Product (PREP). It is sold in two grades: fine (5/16" screen) and coarse (7/16" screen).	Call Jeff Gage at 253-847-7555 for more information. PREP is distributed by two firms. Contact Amended Soil Technology at 253-537-7000 or Randles Sand & Gravel at 253-531-6800. These companies can prepare special mixes and arrange for bulk deliveries or application using blower trucks.
Pacific Topsoils	Suppliers of a wide variety of landscape materials, including topsoil, mulch, compost, rock and fill. Their Pacific Garden Mulch (PGM) is prepared from composted yard and garden debris and is sold separately or as a component of standard or specialty mixes.	Call 800-884-SOIL (7645) for commercial sales assistance. Blower application also available.
Phoenix Organics	This subsidiary of Cedar Grove will provide bids on volume delivery of compost and other recycled organic materials in north King County.	For information, contact their office at 360-435-5035.
Soos Creek Organics	This company produces two compost products from yardwaste, (1/2" and a 1" minus).	Call 253-639-0055 for information.

Recycled Content Building Materials Product List

Div. 2: Sitework Recycled Content Asphalt Mix

Asphalt producers have long included recycled asphalt in their hot and cold mixes. Performance and price are comparable to mixes without recycled content.

Vendor	Product description	Contact information
Watson Asphalt	This company uses approximately 10% reused asphalt in their new pavement. They contract for jobs of 18,000 sq. yds.	Contact Watson Asphalt, PO Box 845 in Redmond, 425-868-4377
MA Segale, Inc.	They produce a Recycled Asphalt Product (RAP) that is available as a mix to contractors. In addition, they can use it in their own sub-contract work.	For information or to place orders, call them in Auburn at 253-839-2101.
Lakeside	A large supplier of asphalt, they use an average of 10% recycled in many of their mixes, most times of the year. For smaller jobs, they can refer you to a large number of subcontractors, who purchase from them.	Call 206-343-7375 (Seattle), 253-631-3611 (Kent), or 425-313-2600 (Issaquah).

Div. 2: Sitework Recycled Concrete Aggregate

Recycled concrete and asphalt that has been crushed and screened to size without contaminants has a wide range of beneficial uses as aggregate in construction.

Vendor	Product description	Contact information
Renton Concrete Recycling	This company produces gravel that is made from 100% recycled concrete and asphalt.	For more information or to place an order call their general business office at 425-481-9101.
Stoneway Concrete	Their crushed concrete, from 100%-recycled material, can be used for base work, fill, and more.	Call 206-623-1414 in Seattle, 425-226-1000 in Renton, or 253-631-3100 in Kent.

Recycled Content Building Materials Product List

Div. 2: Sitework Bike Racks

Vendor	Product description	Contact information
Madrax Bicycle Parking	The Gridrac, Grand Stand, Bike Bench, and Bike Locker.	Based in Middleton, WI. Call 800-448-7931. Distributed on the west coast by Hannan Specialties, 5650 Marconi Ave., Ste. 5, Carmichael, CA 95608, 800-722-2453.
Cora Bike Rack, Inc.	Cora "W" Series—Available as galvanized steel and stainless steel. Colors include red, blue, green, black, brown, yellow, and gray. Over 100 installations in the Puget Sound area. Notable examples include the Newmark Building, downtown Seattle, and Microsoft, in Redmond.	A local company: P.O. Box 9844, Seattle, WA 98109. Call 206-622-2629 for more information.
American Bicycle Security Company	Viper Rack—Product constructed of 2" OD steel tubing with vinyl coating; comes with one-year warranty. Standard color is black. Also have a bike locker.	Write to P.O. Box 7359, Ventura, CA 93006 or call 800-245-3723.

Recycled Content Building Materials Product List

Div. 2: Sitework Recycled Plastic Lumber and Traffic/Parking Products

Vendor	Product description	Contact information
Environmental Specialty Products	From 25% to 100% post-consumer material. Cost depends on order; however, product is cheaper than virgin plastic, and longer lasting than comparable wood products.	Distributed by Recycled Plastics Marketing, 2829-152nd Ave. NE, Redmond, WA 98052, 425-867-3200.
Earth Care Plastic Lumber	A wide supply of recycled plastic building materials, products, and furnishings.	Also distributed by Recycled Plastics Marketing, 425-867-3200.
Hammer Plastic Recycling	Manufacturers of car stops, speed bumps, bollards, and a variety of outdoor furnishings. All products are 100% recycled content; post-consumer content varies, but can be up to 90%. Products come with a 7-year warranty against breakage; will last at least 15 times longer than wood. Available in handicap blue, safety yellow, and gray.	Charles A. Watt, 4121 6th Ave. NW, Seattle, WA, 98107, 206-783-8400.

DIVISION 3: CONCRETE

Div. 3: Concrete Ready-Mixed Concrete

Fly-ash is a by-product from coal burning power plants. It is readily incorporated into ready-mixed concrete in place of 10 to 30% of the cement content. While cement with fly-ash sets a little slower, it is a less expensive alternative depending on availability. It reportedly has better flow and greater strength using less water. It creates a smoother finish, and it can be used in a variety of applications.

Vendor	Product description	Contact information
Stoneway Concrete	Their ready-mixed concrete can incorporate different amounts of fly-ash depending on the mix and its application.	Call 206-623-1414 in Seattle, 425-226-1000 in Renton, or 253-631-3100 in Kent.
Miles Sand & Gravel, Co.	They produce many types of ready-mixed concrete at several Puget Sound locations. Upon request they can incorporate fly-ash in place of some cement content.	To place orders or receive more information call 206-833-3700.
Lonestar Northwest	They can produce ready-mixed concrete with fly-ash in different quantities depending on the application.	For information call 206-764-3030.

Recycled Content Building Materials Product List

Cadman	Most of their 200 different mixes have 10% or more recycled fly-ash.	Call 888-322-6847, 206-764-4600, or 425-867-1234.
American Concrete	They have five concrete plants. The plants in Enumclaw and Puyallup regularly use 5-10% fly-ash in their mixes.	Call 253-924-0900 for sales information.

DIVISION 4: MASONRY

Div. 4: Masonry Specialty Blocks

Vendor	Product description	Contact information
SunBlok	SunBlok with mortar and Wall System II without mortar are made with 60% recycled polystyrene and 10% fly ash. Both polystyrene and fly ash are 100% post-industrial. Pricing is regional and availability in this region is uncertain.	For more information contact Sparfil Int'l., PO Box 270336, Tampa, FL 23368, 813-963-3794.
Ener-Grid Building Systems	Ener-Grid/Rasta is an insulated concrete forming system. The precast concrete units, also known as foam concrete blocks, are made with 86% recycled content. The recycled polystyrene is pre- and post-consumer depending on availability. The Ener-Grid/Rastra system is reinforced with steel and meets the zone 4 seismic requirements. There are many installations in Washington state.	Write to P.O. Box 224, Buckeye, AZ 85326, or call 602-386-2232. Distributed in Washington state by TR Strong Building Systems, 6901 Bayview Dr. NE, Olympia, WA 98506, 360-705-2868.

DIVISION 5: METALS

Div. 5: Metals Steel Framing and Products

Steel framing systems have been assuming a greater market share because of their light weight, strength, and resistance to pests, rot, fire and other damage. According to the Steel Recycling Institute, all steel produced in North America has recycled content depending on the production method. Flat rolled products contain at least 25% secondary material, which structural products can have 100% recycled content.

Vendor	Product description	Contact information
Pioneer Steel Framing	This residential steel framing system contains 67% recycled steel. It is 24-inch on-center, cold rolled galvanized steel.	It is carried by Vanport Steel and Supply in Vancouver, WA 800-288-9279.
Angeles Metal Systems	This company manufactures steel framing systems for residential and commercial use. Their steel has a recycled content of 50 to 70%.	For orders call their Tacoma location at 800-510-8933.
Tri-Steel Structures	This company manufactures residential steel framing products made from US steel with approximately 70% recycled content.	Call 800-874-7833 for local distributors.
Birmingham Steel Corp.	Their Seattle mini-mill uses electric arc furnaces to produce rebar with 100% recycled steel content.	To place an order for their rebar, call the sales division at 206-933-2222

DIVISION 6: WOOD AND PLASTIC

Div. 6: Wood and Plastic Composite Wood Building Products

Vendor	Product description	Contact information
Sierra Pine Ltd.	Medex—Medium-density fiberboard with 90% recycled content. An exterior, industrial wood-based panel that exceeds ANSI A208.2 spec for exterior MDF. Highly moisture resistant.	Address: P.O. Box 4040, Medford, OR 97501. Phone: 800-676-3339 for more information.
Gridcore Systems Int'l.	Gridcore—A 100% recycled plywood substitute. These engineered molded paper and wood fiber panels have no toxic emissions and are significantly lighter in weight, reducing shipping costs.	Based in Long Beach, CA. Call 562-901-1492. Locally call Laird Plastics, 650 S. Industrial Wy., Seattle, 206-623-4900; & Weyerhaeuser, 7401 S. 228th St., Kent, 253-854-3550.

Recycled Content Building Materials Product List

Phenix Biocomposites, Inc.	Environ—A biocomposite material made of 40% recycled newspapers. In various colors, looks like granite, with the workability of hardwood. Meets or exceeds mechanical properties and stability requirements typical of interior use. Class 2 fire rating.	Write to P.O. Box 609, Mankato, MN 56002, or call 800-324-8187.
----------------------------	---	---

Div. 6: Wood and Plastic Salvaged Wood Building Products

Salvaged wood is a specialty item. By its nature it has unique qualities, which are subject to availability and other limitations.

Vendor	Product description	Contact information
Earthwise, Inc.	They offer salvaged lumber, beams, doors, windows, cabinets, plumbing, electrical, flooring, etc.	Located in Seattle at 707 S. Lander, 206-624-4510.
J Squared Timbers	This business produces high-quality structural timbers, post and beam materials, outdoor structures, and flooring from salvaged wood.	Call them at 206-633-0504 for details.
Resource Woodworks	This specialty sawmill does only custom orders for timbers and other wood products and can grade-stamp your wood.	Call 253-474-3757 (Tacoma) for more information.
Second Use Building Materials	They offer used and discounted lumber, beams, doors, windows, cabinets, plumbing, electrical, hardwood flooring, brick, block, etc.	Located in Woodinville, 23529 63 rd Ave. SE (206-402-0961) or Seattle, 7953 2 nd Ave. S. (206-763-6929).
R.W. Rhine	A variety of salvaged wood products	253-537-5852 (Tacoma).
Duluth Timber	Specialize in beams, paneling, and flooring in various grades--all from salvaged wood	Visit their store at 125 Stewart St, Seattle, or call 206-448-1982.

DIVISION 7: MOISTURE AND THERMAL PROTECTION

Div. 7: Moisture and Thermal Protection Insulation Products

Most of the major types of insulation are available with recycled content. For example, fiberglass blankets or batts and radiant barriers made of aluminum typically contain recycled material. There is an EPA recommendation of 20 to 25% recycled content for all fiberglass insulation and a State of California regulation of 30%. Fire-resistant, loose-fill cellulose insulation for blown application is often made with as much as 100% recycled newspaper fiber. Rigid insulation products may also have recycled content reaching as high as 97%.

Vendor	Product description	Contact information
Celotex	They manufacture a polyisocyanate rigid foam board insulation with a total recycled content of 18%. Post-consumer plastic and DMT bottoms make up 11 to 18%.	Call Celotex at 800-227-1216 or call a local distributor listed below.
Green Stone	A subsidiary of Louisiana-Pacific that manufactures Cocoon, a loose fill insulation made from 100% recycled newsprint. R value: 3.8 per inch. Density: 1.6 lb. per cu.ft.	Contact the plant in Portland at 800-237-7668 for direct orders, or call 888-592-7684 for local subcontractors who install their product.
Owens-Corning Fiberglass	Fiberglass insulation with over 30% recycled glass content (4% post-consumer, 26% pre-consumer).	Call 800-882-7873 for more information and a list of local subcontractors and dealers.
Schuller International (Johns Manville)	Schuller International (Johns Manville) is one of the largest manufacturers of residential and commercial fiberglass insulation products, such as GoldLine and ComfortTherm, which contain a minimum of 25% recycled glass (18% post-consumer remelted bottle glass; 7% pre-consumer glass).	Call the Product Information Center at 800-654-3103 for more information or names of local distributors.
Tenneco Building Products (formerly Amoco)	Their extruded polystyrene insulation, RCX, contains a minimum of 50% post-consumer and industrial recycled material. R-value: 3.85/in.	Orders can be placed locally through Collins Co. at 800-742-5895, or call the Tenneco sales department at 800-241-4402.
Thermoguard	They make dry blow-in cellulose-based insulation made from 100% recycled paper. R value: 3.6 per inch. Density: 2.0-2.3 lb. per cu.ft.	Call 206-575-9160 for a list of providers.
Western Insulfoam	This Kent manufacturer offers an expanded polystyrene insulation with approximately 30% recycled content.	They can be reached at 800-775-9424 or 253-242-9424.

Recycled Content Building Materials Product List

Local area distributors for a variety of recycled insulation products

Vendor	Product description	Contact information
R-Factor Insulation and Accessories	This Woodinville company carries Thermoguard, Owens-Corning Fiberglass, Greenstone's Cocoon, and Celotex.	Call 800-875-7289 for information.
Insulation Supply, Inc.	They carry Thermoguard and Western Insulfoam, and Celotex.	Call 206-872-8006 or 800-742-5122.
Paragon Pacific Insulation	They carry Thermoguard, Western Insulation, and other fiberglass insulation with the recommended 25% recycled content.	Located in Kent. Call 253-872-0800.

Div. 7: Thermal and Moisture Protection Metal Roofing

Vendor	Product description	Contact information
BHP Steel	BHP Sheet Metal Roofing has 25% recycled content.	Based in Sacramento, CA. Call 916-372-6851.
ATAS Int'l.	Lightweight, low-maintenance roofing products in many styles. Available in steel, aluminum, or copper, with varying amounts of recycled content. All products meet UBC requirements and are classified as fire retardant roofs. Competitive with wood shake shingles and clay tile. Warranted for 25 years against chipping, cracking, peeling, de-laminating or fading.	Located at 4559 Federal Blvd., San Diego, CA 92102. Call 619-696-0102 for details.
Gerrard Roofing Technology	Gerrard Roofing Tile contains 80% recycled post-industrial metal. It is manufactured in 15" x 45" sheets and priced by the "square"—100 square feet of roofing material.	Located at 955 Columbia St., Brea, CA 92806. Call 800-841-3213. Complete product catalogue and samples are available.
Zappone Manufacturing	Zappone Shingle Roofing—Zappone Manufacturing produces recycled content roofing shingles from copper (80% recycled) or aluminum (100% recycled). Both types are produced from 100% post-consumer products. MSDS is available. Local example of copper roofing is at McDonald's in Kent. Aluminum can be tinted forest green.	Located at N. 2928 Pittsburg, Spokane, WA 99207. Call 800-285-2677 for more information.

Recycled Content Building Materials Product List

Classic Products	Rustic Shingle—Engineered aluminum roofing system, simulates hand-split cedar shakes. Available in several colors and has 98% recycled content, 50% post-consumer.	Write P.O. Box 701, Piqua, OH 45356 or call 800-543-8938.
------------------	--	---

DIVISION 9: FINISHES

Div. 9: Finishes Gypsum Drywall

Gypsum drywall with recycled content is available in varying quantities for use in any drywall application. Most face and back paper is 100% recycled material and some companies produce 100% synthetic gypsum from gas de-sulfurization at coal-burning power plants.

Vendor	Product description	Contact information
Georgia Pacific	"Gyproc" is manufactured at their Tacoma plant with an average of 10% post-consumer recycled content depending on availability. The face and back paper is from 100% recycled materials.	Their tech-line, 800-225-6119, can provide information about recycling projects at their other plants. Call 800-824-7503 for a list of local distributors or see below.
Celotex	They manufacture gypsum board with up to 55% recycled content: 5% recycled newsprint and 0-50% recovered gypsum.	Call 800-227-1216 for a list of local distributors and see below.
United States Gypsum	The recycled content of their gypsum board depends on the manufacturing plant. Some of their plants make a 100% synthetic gypsum from post-industrial materials. The face and back paper on all of their drywall is from 100% recycled material. In addition, they also produce FiberBond, which is a stress-resistant product made with recycled newsprint.	For more information, call 800-874-4968 or see below for a local distributor.

Recycled Content Building Materials Product List

Local area distributors recycled content gypsum drywall

Vendor	Product description	Contact information
Wall & Ceiling Board	They sell Georgia Pacific Gyproc to contractors.	Call 206-723-7403.
GTS Drywall Supply Co, Inc.	They carry Georgia Pacific Gyproc for sale to contractors.	Call 425-828-0704 for area locations.
Dunn Lumber	They sell Celotex to contractors.	Call their corporate headquarters at 206-632-2129 for a list of locations.
Matheus Lumber Co.	They carry Celotex brand.	Call them in Woodinville at 425-284-7500.
Building Specialties	They carry US Gypsum drywall	Call their Redmond location at 800-544-5902.

Div. 9: Finishes Carpet and Floor Finishes

Recycled materials, such as old #1 PET plastic pop bottles, are used increasingly as ingredients of commercial and residential carpeting, and in carpet backing and padding also. In addition, many types of floor tiles, matting, and play surfaces contain recycled plastics and rubber. Recycled carpeting is now widely available from most carpet suppliers. Some other types of recycled flooring may require ordering.

Vendor	Product description	Contact information
Image Carpets	Manufactured by Envirotech, all of their carpets are made from 100% post consumer PET. They offer many residential and commercial lines.	Call Image Industries at 800-722-2504 for list of local dealers or see below.
Shaw Industries	Shaw manufactures both residential and commercial carpets. Their residential lines (Philadelphia Carpets and E & B) are made from 50-70% post consumer PET. Their commercial line (Eco Solution Q) contains 25% post-consumer industrial nylon in the facing.	Shaw can be contacted at 800-833-9665. Shaw Sterling, a local contractor, uses all of Shaw Carpet products and can be reached at 206-762-3883 or 800-410-3883.
Homosote Company	This New Jersey company produces 440 CarpetBoard carpet underlayment for sound deadening. It is made from 100% post consumer newsprint and is available to subcontractors at most wholesale lumberyards. For retail sales, contact retail lumber yards and stores such as Home Depot.	Homosote can be reached directly at 800-257-9491.

Recycled Content Building Materials Product List

Fairmont Corporation	Their DUBL-BAC product is a polyvinyl/polyester carpet underlayment for commercial use with double glue down installation. It is made from approximately 30% pre-consumer recycled material from the automotive and furniture industries and from 10% post consumer material.	Call 800-621-6907 for information.
RB Rubber Company	RB produces several different flooring products. Their rubber matting is made from 97% post-consumer tire rubber. It comes in 3 thickness and can be used as carpet underlayment, gym flooring, and industrial plant flooring. They also manufacture mats and loose fill for playgrounds from 97% recycled tire rubber. In addition, they produce a 12" interlocking tile from 100% recycled post consumer PVC. It can be used as temporary flooring or as drain tile and comes in many colors.	For more information or to place orders, call the commercial division at 800-525-5530.
Vintage Lumber	This company specializes in antique wood-flooring made with salvaged wood.	For more information, to place orders or visit a local showroom call 800-499-7859.

Local area distributors for recycled content carpet and floor finishes

Vendor	Product description	Contact information
Collins & Aikman Floorcoverings	They sell residential and commercial lines.	Call 425-641-1958.
Contract Furnishings Mart	They sell Image Carpet to contractors.	Call 800-275-8760. Allow extra time to process your order.
Commercial Floor Distributors	They sell Image Carpets to contractors.	Call 206-623-1355.
The Floor Shop	This is a wholesale and retail outlet for Image Carpets.	For information and orders, call their Redmond location at (425) 827-0665.

Recycled Content Building Materials Product List

Carpet Resource Center	They sell several residential and commercial lines. Their residential carpeting is made from recycled PET. They carry commercial lines by Shaw. They can also provide a list of local installers that buy from them.	Call 206-623-5417 or 800-448-3939 for information.
Seattle Construction Resources	They sell Philadelphia Carpet made by Shaw.	Call 206-282-7500.
T & A Supply Co.	They distribute Fairmont's DUBL-BAC underlayment to contractors	They can be reached at 206-282-3770 in Seattle or 425-872 3682 in Kent.
Environmental Home Center	This business offers a large variety of flooring products made from recycled material (e.g., reclaimed wood, tile, carpet). They sell at the retail level and wholesale to subcontractors.	For more information on specific products visit their store in Seattle at 1724 Fourth Ave S, or call 206-682-7332.
Wood Floor Products	They can order wood flooring from several companies that use salvaged wood in their flooring. They can also suggest companies to contact directly.	Call 206-622-6996 for more information.

Div. 9: Finishes Acoustical Ceiling Tiles

Whether made of wood fiber or mineral fiber, there is a wide range of ceiling tiles containing 25 to 88% recycled content materials. These products are manufactured with the same attention to fire resistance and cost as their non-recycled competitors.

Vendor	Product description	Contact information
Armstrong World Industries	They use recycled mineral wool from steel production facilities and newsprint (60% post-consumer) in their tile production. Their ceiling tiles have up to 79% recycled content depending on the product.	For more information about specific recycled content, call their technical support at 800-448-1405 or see below for a local distributor.
Celotex Corporation	Their acoustical ceiling tiles contain up to 93% recycled content. Post-consumer newsprint makes up 3 to 21%, and 30 to 90% is recovered steel mill slag.	Call 800-227-1216 for local distributors or see below.
USG Interiors	Their acoustical ceiling tiles have anywhere from 45 to 85% recycled content depending on the product. The recycled material is from newsprint and slag from the iron-ore reduction process.	For specifics on recycled content of individual products call their tech-line at 800-321-4199. For product information call their local distributor listed below.

Recycled Content Building Materials Product List

Local area distributors for acoustical ceiling tiles:

Vendor	Product description	Contact information
Sepia Interiors Supply	Carries the full range of Armstrong tile products.	Call 425-486-3353 in Kenmore or 253-922-2430 in Fife for sales.
Acoustical Supplies	Sells Celotex ceiling tiles to contractors.	Call 800-522-4094 for more information.
Building Specialties	Carries USG Interiors ceiling tiles and other products.	Located in Redmond at 800-544-5902.

Div. 9: Finishes Paint

Recycled paint can contain “reworked” paint that is unusable due to production flaws and expiration dates. Other recycled paint has post-consumer content from household hazardous waste collection sites. The range of quality available in recycled paints is as variable as non-recycled paint, and the price is as well comparable.

Vendor	Product description	Contact information
Paint Solutions	This company has the contract to collect and recycle paints from household hazardous waste collection events in King County.	Contact them at 425-251-0115 for information about sales and ordering.
Rasmussen Paints	They offer latex exterior/ interior paints with recycled content in a variety of finishes and resin qualities. Price is comparable to non-recycled paints.	Call Chris Rasmussen at 425-454-5821 for more information.
Kelly-Moore Paints	E Coat Paint has a minimum of 50% post-consumer content. It is a low sheen, latex exterior/interior paint available in six different earth tones. It is less expensive than regular paint of comparable quality and can be ordered from any Kelly-Moore store.	See the yellow pages or call the District Office at 206-763-0300.
Eco-Chemical	Glass-Coat Paint is a water-based interior/ exterior paint for concrete, cinderblock, stucco, and other similar surfaces. This paint uses approximately 3 lbs. of 100% recycled glass as the filler rather than the traditional filler of mined clay. The recycled glass is about 30% of the final paint product. It was developed in conjunction with support from the Clean Washington Center. It is comparable in price to similar paints and can be tinted for any number of colors.	Contact Eco-Chemical in Seattle at 206-488-7930.

Recycled Content Building Materials Product List
